Can stop logs regulate seasonal water flow?

Water Control Equipment for Irrigation Systems · https://whipps.com/whipps-inc-water-control-products-faqs/can-stop-logs-regulate-seasonal-water-flow/

Yes, stop logs are ideal for regulating seasonal water flow thanks to their modular design and ease of installation/removal. You can add or remove logs as needed to adjust water levels throughout the year. For added convenience, we also offer custom storage racks to keep logs organized when not in use.
